PRIMARY STARSKATE

This is a "stepping stone" session for skaters who have passed stage 5. This stage introduces freeskate (jumps, spins, etc) and dance in a group lesson format. Skaters will receive a group lesson and then be introduced to working on their own while sharing the ice with Intermediate Starskaters and receive a group stroking/edges/spins lesson. Parents may choose to hire a private coach or the child(ren) can work on their own. Any Skate Canada test fees and/or partner fees will be an extra cost and is the responsibility of the parent. Please discuss fees with your coach and partner.

We as a Club feel that this is an important step to introduce these skaters to their next level.

For coach availability, please refer to the list of coaches provided following the ice schedule in this handbook.

LEVELS AND TIMES MAY CHANGE ACCORDING TO NUMBERS REGISTERED.

STARSkate offers opportunities for skaters of all ages to develop fundamental figure skating skills in the areas of ice dance, skating skills, free skate and interpretive skating. Unique in Canada, this program teaches figure skating skills in a group and/or private lesson format in a progressive and sequential manner. Skaters have the opportunity to take Skate Canada Tests through a nationally standardized testing system.

STAR 1-5 assessments are coach-assessed on your child's regular sessions. Your coach will discuss with you when your child is ready for an assessment and when the assessment will take place. A Skate Canada fee of $12 is required for each test which must be paid in advance to your child's coach or our club test chair.
